

## Community Advisory Group Work Plan

Updated: 6/4/14

### Purpose

The main purposes of the Community Advisory Group are to:

- Learn about Puget Sound Energy’s (PSE) proposed route segments, PSE’s route analysis work to date, and the complexity of identifying the route segments
- Collaborate with PSE on a community values-based evaluation process that will be used by the advisory group to consider PSE’s proposed route segments, combine segments into possible route options, and narrow route options down to recommended route(s)
- Provide a forum for the community to give meaningful input on route segments and route options
- Help PSE better understand community values as it selects the preferred route that balances the needs of their customers, the local community and PSE
