

## Next Steps

We encourage you to continue to stay involved in the conversation about the Energize Eastside project by submitting feedback, observing upcoming Community Advisory Group meetings, and joining us at future community meetings.

The next community meetings will be scheduled later this year, timed with key Community Advisory Group milestones:

- After potential route options have been developed based on input from advisory group Sub-Area Committees.
- After route options have been narrowed to one recommended route.

We are committed to working with the community to better understand the issues to consider as we select the route that will meet the needs of PSE's customers, the local community and PSE.

## Questions and Comments

 Puget Sound Energy  
P.O. Box 97034, EST06W  
Bellevue, WA 98009-9734

## Potential route segments

*Route options will be configured to go from segment A to segment N and connect with one of the potential substation sites.*

## Open House Guide

### Welcome and thanks for coming!

Thank you for attending Puget Sound Energy's open house on the Energize Eastside project. The project team looks forward to sharing information and discussing the project with you. No presentation is scheduled for this meeting and all materials will be posted online.

### Why are we here tonight?

- **Growth is straining our region's existing electric transmission system.** Growth studies project the demand for reliable power will exceed capacity as early as 2017.
- **Conservation alone is not enough to meet the challenge.** Without substantial infrastructure upgrades, tens of thousands of residents and businesses will be at risk of more frequent and longer outages.
- **We need to act now.** PSE is committed to providing reliable, safe power, while helping to sustain economic growth on the Eastside.
- **PSE's Energize Eastside project will power the area's growth into the future.** PSE found the only way to meet growing demand is by bringing new higher capacity electric transmission lines to the Eastside, where demand is highest.
- **We will work with the community to identify solutions to ensure dependable power for business and families.** We are asking for your input on which combination of route segments best serves the Eastside's needs.

### This guide will help you:

- Learn about the Energize Eastside project.
- Navigate the information stations.
- Speak with project staff, get your questions answered and provide feedback.

Throughout tonight's open house we encourage you to ask questions and provide comments. PSE staff are wearing blue and white shirts with white name tags.

## Station Guide

Take a moment to get acquainted with what we have at each of our stations at this open house.

### 1 PSE: Delivering your energy future

- Learn how PSE generates and delivers power to customers.
- Learn about PSE's energy efficiency programs.

### 2 Eastside need and growth

- Review Eastside growth and energy demand projections.
- Watch a short presentation about the challenges to the local electric transmission system and how the Energize Eastside project will help meet growing demand.

### 3 About the Energize Eastside project

- Get an overview of the project.
- Review the project schedule and potential pole configurations.
- Talk with staff about how the project was identified as the solution to the Eastside's needs.

### 4 Considering the options

- Explore the project's potential route segments and how they were identified.
- Review aerial maps and photos of the route segments.
- Share your input on the route segments.

### 5 Involving the community

- Discover how PSE is involving the community to help identify a preferred route.
- Learn more about the Community Advisory Group.

### 6 What about...?

- Project staff are available to answer your questions about a variety of topics, including electromagnetic fields, permitting and easement requirements.

### 7 Join the conversation

- We want your input about the route segments, issues the Community Advisory Group and PSE should discuss about the route segments, and other questions you may have.

### 8 What's happening in your city?

- Learn more about what's happening in your city.

### 9 Refreshments
