

EVALUATION FACTOR:

Avoids sensitive community land uses

The sensitive community land uses evaluation factor includes data on community land use areas such as schools, religious institutions, parks, and trails within 25 feet of a potential route option.

Data about recreational use, historic sites, and child care facilities can be found in the complete data tables. These data were not included here because the recreation data is very similar to parks, and the range of data for child care and historic sites is very small.
