POLE TYPE G2-1

- Height: 115'
- Right of Way: 100'
- Span Lengths: 550'

Note: Span lengths and heights shown are typical and may vary due to localized site conditions and engineering requirements.

POLE TYPE G2-5

- Height: 110'
- Right of Way: 100'
- Span Lengths: 550'

Note: Span lengths and heights shown are typical and may vary due to localized site conditions and engineering requirements.

POLE TYPE G2-5

- Height: 130'
- Right of Way: 100'
- Span Lengths: 1,000'

Note: Span lengths and heights shown are typical and may vary due to localized site conditions and engineering requirements.

POLE TYPE
G2-9

- Height: 110'
- Right of Way: 100'
- Span Lengths: 550'

Note: Span lengths and heights shown are typical and may vary due to localized site conditions and engineering requirements.

POLE TYPE G2-10

- Height: 105'
- Right of Way: 100'
- Span Lengths: 600'

Note: Span lengths and heights shown are typical and may vary due to localized site conditions and engineering requirements.
